Part III EXAMINER'S AMENDMENT

1. An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. § 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the Issue Fee.

Authorization for this Examiner's Amendment was given in a telephone interview with Jennifer Stewart on January 25, 2006.

The application has been amended as follows:

Claims 27-41 have been canceled.

REASONS FOR ALLOWANCE

2. Claims 1-26 and 42-52 are allowed.

3. The following is an Examiner's Statement of Reasons for Allowance:

The invention as claimed is not taught or rendered obvious by the prior art of record. Regarding claim 1, the prior art of record fails to teach or suggest, alone or in combination "wherein in said first folded position, said first and second sections of said housing are folded in side by side relation with said display and said camera lens facing towards each other; and wherein in said second folded position, said first and second sections of said housing are folded in side by side relation with said display and said camera lens facing away from each other".

Regarding claim 42, the prior art of record fails to teach or suggest, alone or in combination "wherein in said first folded position, said first and second housing sections are folded in side by side relation with said display and said camera lens facing towards each other; and wherein in said second folded position, said first and second housing sections are folded in side by side relation with said display and said camera lens facing away from each other".

Bennetts et al. (U.S. Pub No: 2005/0096106 A1) discloses a housing for a mobile communication device (fig. 1) comprising: a first housing section with a first side and a second side (fig. 1 numbers 20 and 24); a second housing section with a

first side and a second side (fig. 1 numbers 22 and 26); a hinge mechanism pivotally connecting said first and second housing sections to allow said first and second housing sections to rotate between a first folded position (fig. 4 numbers 4, 50 and 52), in which said first and second housing section are folded in side by side relations with said first sides facing (fig. 4 bottom figure), and a second folded position, in which said first and second housing section are folded in side by side relations with said second sides facing (fig. 4 top figure wherein numbers 14 and 18 are facing outward). Fukuda et al. (U.S. Pub No: 2003/0040346 A1) discloses a portable device having a camera feature. Sudo (U.S. Pub No: 2005/0054394 A1) teaches a hinge device and cell phone that opens to 160 degrees. However, none of the prior art of record teaches the two claimed paragraphs above.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Keith T. Ferguson whose telephone number is (571) 272-7865. The examiner can normally be reached on 6:30am-4:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, William Trost can be reached on (571) 272-7872. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
